

The Westinghouse- Homewood Story

Did you ever wonder what happened to Westinghouse? For over a century, Westinghouse Electric Corporation was a global leader in the manufacturing of motors, generators, transmission and distribution equipment. Over the years, Westinghouse divested all of its manufacturing operations, including Homewood.

Since the installed base of Westinghouse equipment is immense worldwide, many companies, such as Homewood, bought the various products, along with the rights to continue to support the Westinghouse base. Each company has its own set of specific products that it manufactures.

Through our personal relationships, built over many years with colleagues that are now part of those other companies, we have formed close alliances. If we do not have the information to manufacture the item that you need, we will source genuine Westinghouse products, or their replacements, from our partners.

Homewood has amassed the technical expertise, original documentation, tooling and strategic alliances which can support the Westinghouse base of products. With our expertise acquired over decades of work in the power transmission & distribution sector, we are highly qualified to assist you with technical and commercial matters to help your operations remain efficient and profitable.

Whether you need parts, life extension kits, or complete motors and breakers, Homewood is here to provide cost effective solutions. Homewood has provided these solutions, along with engineering, installation and field service assistance, for Westinghouse equipment in over 45 countries. Can we help you with your domestic or international revitalization program? Please call our toll free number 800-777-1172, or 412-665-2700 for additional assistance or visit our website at www.homewoodsales.com

IF WESTINGHOUSE MADE IT, WE SUPPLY IT AND WE SUPPORT IT—WORLDWIDE

Have you been struggling to find support for your Westinghouse equipment? Are you looking for genuine Westinghouse parts, life extension kits, new or revitalized circuit breakers and motors? Look no more!

As a former manufacturing division of *Westinghouse Electric Corporation*, we at Homewood have specialized in the manufacturing of genuine Westinghouse industrial & power distribution equipment for more than 80 years.

Since Homewood is the original equipment manufacturer, we can provide complete units, components or parts, built to the original Westinghouse specifications. Our technical library contains over 20 million original Westinghouse records, and our engineering team that provides expertise and review includes many former Westinghouse engineers.

If you provide the shop order or part number, we can supply the product. Since the parts/equipment are manufactured from your original shop order, there is no guessing on dimensions. They will be a direct replacement and fit—we guarantee it!

GENUINE WESTINGHOUSE PRODUCTS THAT EXTEND THE LIFE OF YOUR EXISTING EQUIPMENT

For over a century, Westinghouse designed and built excellent industrial and power distribution equipment. The vast amounts of equipment still in operation today are a testament to the reliability and durability of the products.

Homewood is proud to continue the Westinghouse tradition by providing genuine Westinghouse products. Extend the life of

your equipment without expensive change out costs, environmental concerns and re-training of personnel. With Homewood, you have options. Proven, reliable technology designed to provide service for a lifetime.

Westinghouse Motor & Gearing Products

AC

- ▶ Induction Motors
- ▶ Wound Rotor Induction Motors
- ▶ Synchronous Motors
- ▶ AISE Mill Motors
- ▶ Gear Motors
- ▶ Brake Motors
- ▶ Generators

Specific Purpose

- ▶ Exciters & Auxiliary Generators
- ▶ Motor Generator Sets
- ▶ Traction Motors & Generators
- ▶ Diesel-Electric Locomotive Motors
- ▶ Excavator Motors & Generators
- ▶ Oilwell Drilling Electric Motors
- ▶ Shaker/Vibrator Industrial Motors

DC

- ▶ Motors
- ▶ Generators
- ▶ Brakes
- ▶ AISE Mill Motors

TECO-Westinghouse

Master distributor for vintage and current production motor and drive products

- ▶ 1 thru 20,000 HP-AC & DC

Switchgear Products

AC Low Voltage

Westinghouse

- ▶ DA
- ▶ DS
- ▶ DK
- ▶ Molded Case

AC Medium Voltage

Westinghouse

- ▶ DH
- ▶ DHP
- ▶ CA (Compressed Air) 2000-7000 Amps 15 to 34.5 KV
- ▶ OCB (Oil Circuit Breakers) 5 to 34.5 KV
- ▶ SF6 - 15 to 34.5 KV

AC High Voltage

Westinghouse

- ▶ OCB – 34.5 KV through 800 KV
- ▶ SF6 – 34.5 KV through 800 KV

DC

Westinghouse

- ▶ CH
- ▶ CHM
- ▶ DM
- ▶ DMD
- ▶ DM2F
- ▶ DM2R
- ▶ DR (up to 10,000 amps)

Control Products

Switches

Westinghouse

- ▶ Master Switches
- ▶ Knife Switches
- ▶ Limit Switches
- ▶ Proximity
- ▶ Planner
- ▶ Precision

Oil-Tite (OT) Panelboard Items

Westinghouse

- ▶ Pushbuttons
- ▶ Selector Switches
- ▶ Indicating Lights
- ▶ Contact Blocks

Miscellaneous

Westinghouse

- ▶ Contactors
- ▶ Motor Starters
- ▶ Interlocks
- ▶ Linestarters
- ▶ Manual Rheostats
- ▶ Relays
- ▶ Timetactors
- ▶ Filter Paper
- ▶ Grid Resistors

Additional Capabilities

Global Engineering Field Service

Installation, Commissioning, Maintenance, Repair of Equipment Anywhere in the World

- ▶ Power Stations
- ▶ Transmission and Distribution
- ▶ Industrial Plants

Eaton's Cutler-Hammer globally authorized service provider

Factory Service

Revitalization and Repair Services

- ▶ Refurbishment of Low and Medium Voltage Circuit Breakers
- ▶ All manufacturers

Procurement

Worldwide Source

- ▶ Eaton's Cutler-Hammer
- ▶ ABB Power T&D
- ▶ Teco-Westinghouse

Nuclear

Safety and Non-Safety Related Equipment

- ▶ Westinghouse Motors, Circuit Breakers and Pushbuttons
- ▶ Non-Safety Related Low and Medium Voltage Circuit Breaker Replacements and Revitalization
- ▶ Equipment Dedication Services
- ▶ Birns Emergency Lighting

Instrumentation and Calibration Services

Calibration Traceable to NIST

- ▶ Electronic and Mechanical
- ▶ Reconditioning and Repair
